COMMISSION IMPLEMENTING REGULATION (EU) .../...

of XXX

laying down rules for the application of Regulation (EU) 2023/956 of the European Parliament and of the Council as regards the conditions and procedures related to the status of authorised CBAM declarant

This draft has not been adopted or endorsed by the European Commission. Any views expressed are the preliminary views of the Commission services and may not in any circumstances be regarded as stating an official position of the Commission.

COMMISSION IMPLEMENTING REGULATION (EU) .../...

of XXX

laying down rules for the application of Regulation (EU) 2023/956 of the European Parliament and of the Council as regards the conditions and procedures related to the status of authorised CBAM declarant

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2023/956 of the European Parliament and of the Council of 10 May 2023 establishing a carbon border adjustment mechanism¹, and in particular Article 5(8) and Article 17(10) thereof,

Whereas:

- (1) Regulation (EU) 2023/956 lays down the rules for the submission of the application to become an authorised CBAM declarant (the ‘application’), and sets out the criteria and procedures for granting such authorisation.
- (2) Importers are to submit the application in order to be able to import goods listed in Annex I to Regulation (EU) 2023/956 into the customs territory of the Union. Importers of electricity, to which Article 5(4) of that Regulation applies, are to be regarded as authorised CBAM declarants without the need to submit the application.
- (3) The Commission is to adopt implementing rules for the submission of the application and for the authorisation procedure, duly considering the need to minimize administrative burden, through automation of procedures and self-declaration of information to the extent possible.
- (4) In order to obtain the application an applicant should, prior to the first importation of goods, submit the application to the Member State of establishment by means of a standard format provided in the CBAM registry.
- (5) In order to ensure that the competent authority decides on the basis of a complete and updated set of information, the applicant should be allowed, before the competent authority makes a decision, to request an adjustment of the information provided in the application, accompanied by a justification for such request. This right should be without prejudice to the right of the applicant to obtain from the data controller, at any time, a rectification of his or her incorrect personal data, in accordance with Article 16 of Regulation (EU) 2016/679².

¹ Regulation (EU) 2023/956 of the European Parliament and of the Council of 10 May 2023 establishing a carbon border adjustment mechanism (OJ L 130, 16.5.2023, p. 52, ELI: <http://data.europa.eu/eli/reg/2023/956/oj>).

² Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) (OJ L 119, 4.5.2016, p. 1, ELI: <http://data.europa.eu/eli/reg/2016/679/oj>).

- (6) In order to ensure, on the one hand, that the competent authority can appropriately examine the application and conduct a consultation procedure, and, on the other hand, that the applicant receives a timely decision on its application, the competent authority to whom an application is addressed should make a decision on the application within a reasonable timeframe.
- (7) If the competent authority considers it necessary, it should be allowed to request additional information from the applicant. In that case the competent authority should be able to extend the deadline for processing the application for a reasonable period.
- (8) The deadline for processing the application may be extended when investigations are necessary to determine whether the applicant has been involved in a serious or repeated infringement.
- (9) In order to allow for their authorisation, importers of electricity to which Article 5(4) of Regulation (EU) 2023/956 applies should inform the competent authority of the Member State of import that Article 5(4) in that Regulation is applicable to them and provide documents supporting that claim.
- (10) To ensure that only bona fide importers become authorised CBAM declarants, the competent authorities should make sure that the applicant has not been involved in a serious or repeated infringement of legislation including economic criminal offences, and that it has a good financial rating. .
- (11) Additionally, the rules on the consultation procedure should allow the competent authority to garner information from the Commission and other competent authorities concerning the fulfilment, by the applicant, of the criteria for authorisation. Data received during the transitional period shows that importers importing less than one tonne are not engaging in cross border activity, therefore the deadline established in the consultation procedure should distinguish between the amount of imported goods.
- (12) To ensure a proportionate application of the procedures, the competent authorities may, in their evaluation of the criteria for granting an authorisation, consider the specific characteristics of the applicant, and in particular micro, small and medium-sized enterprises that should not be subject to unnecessary administrative burden.
- (13) Where the applicant was not established as a legal person throughout the two financial years preceding the year when the application was submitted, the competent authority is to require the provision of a guarantee. The subscription of that guarantee should be registered in the CBAM registry within a timeframe determined by this Regulation. The competent authority should monitor the guarantee to ensure its continued sufficiency, including by requiring an adjustment where necessary, and should release the guarantee when the conditions in Article 17(7) of Regulation (EU) 2023/956 are met.
- (14) To ensure that an authorised CBAM declarant continues to meet the criteria for the authorisation, the competent authority should be able, on its own initiative, after an authorisation has been granted, to re-assess the criteria for the authorisation, upon receiving information provided by another competent authority or the Commission, or upon receiving information provided by the authorised CBAM declarant.
- (15) The persons whose status of authorised CBAM declarant is revoked should comply with all their obligations for goods imported prior to the revocation.
- (16) The provisions on the application for the status of authorised CBAM declarant and the provisions on the granting of such status are closely linked since they deal with the

submission of the application and with the criteria and procedure for the authorisation. To ensure coherence, this Regulation should include provisions required by Article 5(8) and Article 17(10) of Regulation (EU) 2023/956 in a single Regulation.

- (17) This Regulation should apply from 31 December 2024 to allow for the development of the relevant IT system of the CBAM registry to make it fully operational by 1 January 2026.
- (18) This Regulation respects the fundamental rights and observes the principles recognised by the Charter of Fundamental Rights of the European Union, and notably the right to protection of personal data. The processing of personal data should be carried out only for the purposes of measures related to granting or revoking the status of authorised CBAM declarant, as defined in this Regulation. Any processing of personal data should be carried out in accordance with Union law on the protection of personal data. In particular, appropriate safeguards should be put in place to protect the data subjects rights when it is necessary to process personal data under Article 10 of Regulation (EU) 2016/679. In addition to other technical and organisational measures to be implemented by Member States competent authorities, those safeguards should include specific measures to prevent unauthorised access to or disclosure of those data.
- (19) The European Data Protection Supervisor was consulted in accordance with Article 42(1) of Regulation (EU) 2018/1725 of the European Parliament and of the Council³ and delivered an opinion on [xx] 2024.
- (20) The measures provided for in this Regulation are in accordance with the opinion of the CBAM Committee,

HAS ADOPTED THIS REGULATION:

³ Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data and repealing Regulation (EC) No 45/2001 and Decision No 1247/2002/EC ([OJ L 295, 21.11.2018, p. 39](https://eur-lex.europa.eu/eli/reg/2018/1725/oj), ELI: <http://data.europa.eu/eli/reg/2018/1725/oj>).

7. Where the person holding a revoked authorisation is unable to submit the declaration referred to in paragraph 5 or 6 of this Article, it shall inform the competent authority thereof and provide that authority with the information referred to in Article 6(2), point (a), of Regulation (EU) 2023/956.

The revocation shall have no effect on the validity of the importation of goods, and the related emissions, that took place before the person whose status of authorised CBAM declarant is revoked is notified of the revocation.

Article 25 **Immediate revocation**

1. By way of derogation from Article 24 the competent authority may decide that revocation shall take effect immediately in any of the following cases:
 - (a) the conclusions of the reassessment referred to in Article 20 justifies it;
 - (b) the authorised CBAM declarant has ceased its economic activity;

2. Where any of the consulted parties considers that the authorised CBAM declarant does not fulfil one or more of the conditions and criteria required for the authorisation, which would justify revocation under Article 17(8) of Regulation (EU) 2023/956, it shall notify the competent authority having launched the consultation procedure, of the consultation results, duly documented and justified.
3. The competent authority may require additional information and documentation from the consulted parties where the competent authority considers it necessary in order to reach a decision of revocation.
4. The competent authority shall determine a deadline for the consultation procedure, which shall not exceed 15 working days starting from the date of communication by that competent authority of the conditions and criteria which consulted parties need to examine.

The competent authority may determine a shorter deadline where the seriousness of the actions of the authorised CBAM declarants justifies it.
5. Where the consulted parties do not respond within the deadline established for the consultation procedure, the conditions and criteria for which the consultation procedure took place shall be deemed to be fulfilled.

4. Where the competent authority revokes the status of an authorised CBAM declarant, and the right to appeal is exercised, the competent authority shall inform of such appeal in the decision and register the conclusions of the appeal proceedings in the CBAM registry.
